

Multiples of 10%**Solutions**

Example:

Find 30% of 20

First, 10% of 20 = $\frac{1}{10}$ of 20 = $\frac{20}{10} = 2$

Then, 30% = $3 \times 10\% = 3 \times 2 = 6$

1. 40% of 60 = **24**

9. 20% of 40 = **8**

2. 30% of 50 = **15**

10. 40% of 300 = **120**

3. 70% of 20 = **14**

11. 70% of 120 = **84**

4. 20% of 90 = **18**

12. 80% of 160 = **128**

5. 80% of 80 = **64**

13. 30% of 400 = **120**

6. 30% of 70 = **21**

14. 40% of 200 = **80**

7. 60% of 30 = **18**

15. 60% of 140 = **84**

8. 90% of 200 = **180**

16. 30% of 150 = **45**
