

Examples:

- 1) Round 482 to two significant figures = 480
- 2) Round 8178 to three significant figures = 8180
- 3) Round 14.237 to three significant figures = 14.2
- 4) Round 0.2734 to two significant figures = 0.27
- 5) Round 0.083491 to three significant figures = 0.0835

Exercise:

1. Round 612 to two significant figures.
2. Round 4581 to two significant figures.
3. Round 9847 to two significant figures.
4. Round 889 to two significant figures.
5. Round 3542 to two significant figures.
6. Round 72.451 to three significant figures.
7. Round 9.139 to three significant figures.
8. Round 18.891 to three significant figures.
9. Round 987.5 to three significant figures.
10. Round 84.291 to two significant figures.
11. Round 90.76 to three significant figures.
12. Round 4392.8 to three significant figures.
13. Round 0.03112 to two significant figures.
14. Round 0.09867 to two significant figures.
15. Round 9.0092 to three significant figures.
16. Round 0.09842 to two significant figures.
